Correction: Fremanezumab in the prevention of high-frequency episodic and chronic migraine: a 12-week, multicenter, real-life, cohort study (the FRIEND study)

Piero Barbanti^{1,2*}, Gabriella Egeo¹, Cinzia Aurilia¹, Florindo d'Onofrio³, Maria Albanese^{4,5}, Ilaria Cetta⁶, Paola Di Fiore⁷, Maurizio Zucco⁸, Massimo Filippi⁹, Francesco Bono¹⁰, Claudia Altamura¹¹, Stefania Proietti¹², Stefano Bonassi^{12,13}, Fabrizio Vernieri¹⁴ and for the FRIEND-Study Group

Correction: J Headache Pain 23, 46 (2022)
<https://doi.org/10.1186/s10194-022-01396-x>

Following the publication of the original article [1], we were notified of a mistake in the abstract: the 100% response rate in HFEM at week 12 is 5.9% (as correctly reported in figure 3) and NOT 9.9% as reported in the abstract and page 5.

The original article has been corrected.
